

Acknowledgements

The South Carolina Curriculum Standards are the product of the work of many individuals and groups. All have profited from the hard work of others who have gone before them. As always in science, we stand on the shoulders of the giants who have preceded us. In addition to the college and university faculty members and other education professionals who served as consultants and reviewers,* we want to acknowledge

The National Science Education Standards Development Team,
The Science Framework Writing Team,
The Academic Achievement Standards in Science Working Groups,
The Summer Standards Review Committees,
The Education Oversight Committee and Staff,
The Expert External Review Panel,*
The Expert Internal Review Panel,*
The Science Revision Team,
The Science and Mathematics Hubs and Focus Group Reviewers,* and
The School District Focus Group Reviewers.*

** See Appendixes A, B, and C for
the individual members of these groups.*

The South Carolina Department of Education Facilitators and Staff

Linda D. Sinclair, State Science Coordinator and Chair of Science Standards Revision; Linda N. Schoen, Title I Science; Dave Bahna, Science Assessment; Andrea Keim, Kriss Stewart, and Juliet Ricard, Office of Curriculum and Standards

For additional information, please contact
